

Summary and Results

Summary and Results Posidonia Festival art i natura

II International Festival of Art, Environment and Sustainable Development in the island of Formentera 2009

Posidonia Festival is an EcoFestival of Art and Nature that promotes a Culture of Peace and that wants to connect in an innovative way the worlds of ecology, sustainable development and art, involving local and international participants. All show and activities has been free. The second edition of Posidonia Festival Formentera (22-24 de Mayo 2009) has been declared emblematic event of the "International Decade for a Culture of Peace and Non-violence for the Children of the World (ONU-UNESCO 2001-2010)", and it is sponsored by UNESCO. The project wants to be an opportunity for the sustainable, cultural and touristic development of Formentera, and a reference in the Mediterranean area. The Festival wants to be a part of international networks of similar initiatives, and wants to be a meeting point for art, ecology and tourism professionals who can be interested even in Formentera and its future.

The event wants to be also a laboratory for sustainable solutions for the tourist industry and create a center of experimentation, reflection and promotion of these initiatives. [Click here to watch photos and videos of Posidonia Festival Formentera 2009](#)

EcoFestival

Posidonia Festival organization is developing some actions to reduce the Festival's impact on the environment, globally and locally on the island of Formentera, as CO2 compensation, recycling, biodegradable plastics usage. Moreover the Festival takes care also of the social, cultural and economic impact on the island. NICOLÁS GARCIA, XAVIER VAQUERO, directores de "Ralco, un mal negocio" (Chile, España, 2008) - Media Impact Communications have been oriented locally and globally.

The primary objective is to promote the Posidonia Festival and Formentera and according to the socio-environmental reality of the island and the reference touristic target of Formentera and, of course, according to the spirit and objectives of the Festival. The secondary objective is to promote public loyalty.

Finally, the aim is to communicate Formentera as an ecological paradise where it is possible to feel deep positive emotions.

Communication has been optimized, structured and planned to achieve a balance between promoting the Festival in its own dates of the event and all year long.

ACTONS AND RESULTS:

-Communication campaign on press, radio, local and national TV oriented mainly to Spain and secondarily to other European Countries. A significant presence in local, national and international media has been achieved.

For the full press review click here

-2 Press Presentations which have pushed the presence on media from 2 months before to 1 month after the dates of the Festival.

-Cooperation with the Formentera Island Council to promote the Festival on the European circuit of fairs and tourism events (Berlin, Madrid, Milan, Barcelona, Fira per la Terra Barcelona).

-Posters (1000) and flyers (10000) distributed in Formentera, Balearic Islands and main cities of Spain.

-Continous local media coverage during the festival. Live audio broadcast on Radio Illa 107.9 fm, Festival's website, online social networks.

-On site support to media coverage (radio, television, press, local, national, international) for interviews, reports, etc..

WEB:

-Website (www.posidoniafestival.com) and social networks (facebook, myspace, facebook, youtube) used.

-International online media campaign, designed to generate effects in the period antecedent to the festival (and summer tourist season) and throughout the year, mainly based on actions of tribal marketing and viral marketing. Optimization of the presence in search engines and other web pages, mailing.

-About 70 dedicated articles in web pages and blogs of media/journalistic relevance. Unique Visitors to www.posidoniafestival.com:
