

## Transports in Formentera

Transports in Formentera In Formentera there are regular buses which connect the principal places of the island and the locations of the Posidonia Festival. However, most visitors choose to rent a bicycle, a moped or a car to move around the island. A very interesting (and ecological) choice is offered by a company in La Savina (beside the harbour) called Elektracar which rents electrical bikes, mopeds and cars.
